‘CIMIT Animation’ inaugurated at Bhubaneswar

- *A division of CIMIT Computer Education, CIMIT Animation boasts of latest technologies in animation and multimedia to enable animation students access advanced animation studies in Odisha*

Bhubaneswar, 29.08.2014: Keeping in line with the increasing interest and aspiration among students in Odisha for making a career in animation and multimedia studies, city based Cybertech Institute of Management and Information Technology (CIMIT) today launched ‘CIMIT Animation’ offering various multimedia and animation courses including Diploma in Animation and B Sc. in animation. Having all latest technologies and processes in multimedia, CIMIT Animation offers students with a unique opportunity to get access to latest trends in the field of animation and multimedia, adequate industry exposure as well as sound placement opportunities post studies as it aims to make Bhubaneswar a new hub in animation and multimedia works. CIMIT Animation was inaugurated by Ms. Arundhati Devi, Barta Sampadika, Shovaniya Movement in the presence of Dr. Sudarshan Panda, IFS, Director – Nandankanan, Ms. Kakali Pal, Dy. Director, Doordarshan, noted actor Ashrumochan Mohanty and Mr. Dillip Kumar Sahoo, Gen. Secretary, S S Vihar Unnayan Parishad.

Animation and Multimedia has always caught the fancy and aspiration of young professionals, artists and even mass communication as well as management students as a lucrative career options. With lack of adequate infrastructure and programmes on latest animation technologies in Odisha, many of the students earlier had to travel to cities like Hyderabad and Bangalore to pursue animation and multimedia courses. However, CIMIT Animation which has been launched today on the auspicious occasion of Ganesh Chaturthi, bridges this gaps in infrastructure, latest technology, programmes and industry exposure opportunities. CIMIT Animation is offering B.Sc in animation and Diploma in Multimedia & Animation courses affiliated under Karnataka State Open University. These apart it is also offering specialist programmes like Diploma in 3D Graphics, Certificate in advance Maya Character Animation, Certificate in Visual Effects, Specialist Programme in Graphics Design, Specialist Programme in web Design, Specialist Programme in Audio Video Editing, Specialist Programme in Composition and Specialist Programme in Graphic Design etc.

The One Year Diploma courses in Multimedia & Animation provide the students ample opportunities to excel in the sector of animation layout design & animation principles, post production, graphics software photoshop, illustrator, corel draw, audio/video editing. The institute is also providing specialist programmes under its one year diploma course like 3D modeling, texturing, rigging in 3Ds, Max 3D Animation, lighting & rendering in 3Ds max.

Making it easier for young students, even a +2 (Intermediate) qualifying student is eligible to get admitted into the course and pursue career as an expert animator.

Speaking on the uniqueness of CIMIT Multimedia & Animation mater animator Mr. Rupesh Kumar Panda said, “CIMIT Animation is providing the latest hardware technology Mac-Pro and other finest as well as advanced technologies. Students will have the opportunity to be industry ready for any sector through the specialization courses offered by CIMIT Multimedia & Animation. To give students first hand exposure and skills to control any live project of any media house smoothly and to be a master in a production house technology, CIMIT has tied up to provide its students with live projects with different electronic media houses in Odisha.”

CIMIT launches course in animation for Odisha students

Reported by Santosh Jagdev
Bhubaneswar, Aug 29:

There is good news for aspiring students in Odisha who want to make a career in animation and multimedia. City-based Cybertech Institute of Management and Information Technology (CIMIT) today launched 'CIMIT Animation' offering various multimedia and animation courses.

Mrs Kakali Pal, Deputy Director of Doordarshan and noted actor Ashrumochan Mohanty.

Addressing the gathering on the occasion, Mrs Arundhati said animation and multimedia has always caught the fancy and aspiration of young professionals, artists, mass communication and management students as a lucrative career options. "But since Odisha lacks adequate infrastructure and programmes on latest animation technologies, most students aspiring for a career in animation have to travel to cities like Hyderabad and Bangalore to pursue these multimedia courses," she said hoping that CIMIT Animation would fill the void.

CIMIT Animation will offer Bachelor in Science (B Sc) course in animation and Diploma in Multimedia and Animation courses affiliated to the Karnataka State Open University. This apart, it will also offer specialist programmes like Diploma course in 3D Graphics, Certificate course in advance Maya Character Animation, Certificate in Visual Effects, Specialist Programme in Graphics Design, Specialist Programme in Web Design, Specialist Programme in Audio Video Editing, Specialist Programme in Composition and Specialist Programme in Graphic Design.

The One Year Diploma courses in Multimedia and Animation would provide the students ample opportunities to excel in the sector of animation layout design and animation principles, post production, graphics software, Photoshop, illustrator, Corel Ddraw and audio/video editing. The institute is also providing specialist programmes under its one year diploma course like 3D modelling, texturing, rigging in 3Ds, Max 3D Animation, lighting and rendering in 3Ds max.

A student who has passed Plus Two (Intermediate) is eligible to get admitted into the course and pursue a career as an expert animator.

Rupesh Kumar Panda, an animator of the institute said, "CIMIT Animation is providing the latest hardware technology Mac-Pro and other advanced technologies. Students will have the opportunity of industry exposure through the specialization courses offered by CIMIT Multimedia and Animation."

"To give students first hand exposure and skills to control any live project of any media house smoothly and to be a master in a production house technology, CIMIT has tied up with different electronic media houses in Odisha," Panda added.

Director, Doordarshan, noted actor Ashrumochan Mohanty and Mr. Dillip Kumar Sahoo, Gen. Secretary, S S Vihar Unnayan Parishad.

Animation and Multimedia has always caught the fancy and aspiration of young professionals, artists and even mass communication as well as management students as a lucrative career options. With lack of adequate infrastructure and programmes on latest animation technologies in Odisha, many of the students earlier had to travel to cities like Hyderabad and Bangalore to pursue animation and multimedia courses. However, CIMIT Animation which has been launched today on the auspicious occasion of Ganesh Chaturthi, bridges this gaps in infrastructure, latest technology, programmes and industry exposure opportunities. CIMIT Animation is offering B.Sc in animation and Diploma in Multimedia & Animation courses affiliated under Karnataka State Open University. These apart it is also offering specialist programmes like Diploma in 3D Graphics, Certificate in advance Maya Character Animation, Certificate in Visual Effects, Specialist Programme in Graphics Design, Specialist Programme in web Design, Specialist Programme in Audio Video Editing, Specialist Programme in Composition and Specialist Programme in Graphic Design etc.

The One Year Diploma courses in Multimedia & Animation provide the students ample opportunities to excel in the sector of animation layout design & animation principles, post production, graphics software photoshop, illustrator, corel draw, audio/video editing. The institute is also providing specialist programmes under its one year diploma course like 3D modeling, texturing, rigging in 3Ds, Max 3D Animation, lighting & rendering in 3Ds max.

Making it easier for young students, even a +2 (Intermediate) qualifying student is eligible to get admitted into the course and pursue career as an expert animator.

Speaking on the uniqueness of CIMIT Multimedia & Animation mater animator Mr. Rupesh Kumar Panda said, "CIMIT Animation is providing the latest hardware technology Mac-Pro and other finest as well as advanced technologies. Students will have the opportunity to be industry ready for any sector through the specialization courses offered by CIMIT Multimedia & Animation. To give students first hand exposure and skills to control any live project of any media house smoothly and to be a master in a production house technology, CIMIT has tied up to provide its students with live projects with different electronic media houses in Odisha."

CIMIT launches Animation courses in Bhubaneswar

By Our Correspondent
Bhubaneswar, September 1, 2014

Keeping in line with the increasing interest and aspiration among students in Odisha for making a career in animation and multimedia studies, city based Cybertech

Institute of Management and Information Technology (CIMIT) last week launched 'CIMIT Animation' offering various multimedia and animation courses including Diploma in Animation and B.Sc. in animation. Having all latest technologies and processes in multimedia, CIMIT Animation offers students with a unique opportunity to get access to latest trends in the field of animation and multimedia, adequate industry exposure as well as sound placement opportunities post studies as it aims to make Bhubaneswar a new hub in animation and multimedia works. CIMIT Animation was inaugurated by Arundhati Devi, Barta Sampadika, Shovaniya Movement in the presence of Dr. Sudarshan Panda, IFS, Director, Nandankanan, Kakali Pal, Dy. Director, Doordarshan, noted actor Ashrumochan Mohanty and Dillip Kumar Sahoo, Gen. Secretary, S S Vihar Unnayan Parishad.

Animation and Multimedia has always caught the fancy and aspiration of young professionals, artists and even mass communication as well as management students as a lucrative career options. With lack of adequate infrastructure and programmes on latest animation technologies in Odisha, many of the students earlier had to travel to cities like Hyderabad and Bangalore to pursue animation and multimedia courses.

However, CIMIT Animation which has been launched today on the auspicious occasion of Ganesh Chaturthi, bridges this gaps in infrastructure, latest technology, programmes and industry exposure opportunities. CIMIT Animation is offering B.Sc in animation and Diploma in Multimedia & Animation courses affiliated under Karnataka State Open University. These apart it is also offering specialist programmes like Diploma in 3D Graphics, Certificate in advance Maya Character Animation, Certificate in Visual Effects, Specialist Programme in Graphics Design, Specialist Programme in web Design, Specialist Programme in Audio Video Editing, Specialist Programme in Composition and Specialist Programme in Graphic Design etc.

The One Year Diploma courses in Multimedia and Animation provide the students ample opportunities to excel in the sector of animation layout design & animation principles, post production, graphics software photoshop, illustrator, corel draw, audio/video editing. The institute is also providing specialist programmes under its one year diploma course like 3D modeling, texturing, rigging in 3Ds, Max 3D Animation, lighting & rendering in 3Ds max.

Making it easier for young students, even a +2 (Intermediate) qualifying student is eligible to get admitted into the course and pursue career as an expert animator.

Speaking on the uniqueness of CIMIT Multimedia & Animation mater animator Rupesh Kumar Panda said, "CIMIT Animation is providing the latest hardware technology Mac-Pro and other finest as well as advanced technologies. Students will have the opportunity to be industry ready for any sector through the specialization courses offered by CIMIT Multimedia & Animation. To give students first hand exposure and skills to control any live project of any media house smoothly and to be a master in a production house technology, CIMIT has tied up to provide its students with live projects with different electronic media houses in Odisha."
